

7-Day Home Declutter Sprint

Simple daily steps to a calmer, organized space

Feeling overwhelmed by clutter but not sure where to start? This 7-day declutter sprint breaks the process into bite-size daily actions, so you can make steady progress without stress. Each day focuses on a specific area, using proven organizing habits that anyone can adopt. By the end of the week you'll see clearer surfaces, easier cleaning, and a sense of calm that lasts. Ready to reclaim your home? Let's begin the transformation together and enjoy a brighter living environment today.

1. Day 1 - Tame the Entryway

- **Take everything on the floor and nearby surfaces, place it in a basket, then decide for each item: keep, donate, or discard.**
- **Create a dedicated spot for incoming mail and keys; use a small tray or wall hook to prevent piles from forming.**
- **Remove shoes that are not used regularly and store them in a bin or closet; keep only daily pairs near the door.**
- **Wipe down the entry mat and door handles to finish the fresh look.**

2. Day 2 - Clear Kitchen Surfaces

- **Clear all items from the countertops, then return only appliances you use daily, like a coffee maker.**
- **Group similar items (spices, oils, utensils) and store them in a drawer organizer to free up surface space.**
- **Designate a single inbox for paperwork and place it on the counter; commit to processing it each evening.**
- **Wipe the counters with a natural cleaner to reset the area before the next day's tasks.**

3. Day 3 - Simplify the Living Room

- Pick up every loose item in the living room and sort into keep, relocate, or donate piles.
- Limit decorative objects to three pieces; rotate them seasonally to keep the space feeling fresh.
- Use storage baskets for remote controls, magazines, and toys, and label each basket for quick access.
- Vacuum or sweep the floor, then place a rug that defines the seating area for a tidy appearance.

4. Day 4 - Streamline Closets

- Empty each closet onto the bed, then sort clothes into keep, seasonal, and donate piles.
- Apply the “one-year rule”: if you haven’t worn an item in the past year, set it aside for donation.
- Store off-season clothes in clear bins with labels, and keep only current-season pieces on hanging rods.
- Add a single pull-out organizer for accessories (belts, scarves) to avoid drawer chaos.

5. Day 5 - Refresh the Bathroom

- Remove all products from bathroom counters and shelves, then keep only daily essentials like toothbrush and soap.
- Group similar items (shampoos, conditioners) in a caddy; discard empty or expired bottles.
- Install a small tray for jewelry and small tools to keep them from scattering.
- Wipe surfaces with a mild cleaner and replace a used towel with a fresh one for a crisp finish.
